

## Baby Activities

Our babies love to explore with our home made sensory bottles! They are quick and easy to make, just use any empty bottle and add water, sand, glitter, buttons, rice, pasta or anything you have spare in the cupboards.

This activity is the perfect need is a zip lock freezer coloured paint, washing up and sand. These are great textures and make marks

“messy” play alternative! All you bag, we have used different liquid, shaving foam and glitter for the babies to explore new without the mess!

Our babies love to explore with the metal pots and pans! They love creating different sounds and sometimes taking part in role play with the spoons and cups. All you need is pots and pans, spoons, whisks, measuring spoons or anything noisy!

Our babies have lots of fun exploring our homemade treasure baskets. We have used sponges, curtain rings, wooden spoons, coasters, pebbles, shells and bangles.

All you need is a basket and any household objects for them to explore and empty and fill the baskets.
